

Practice Worksheet #4
102-301 Information Searching and Presentation

Topic: Chapter 4 Advanced Search with AI

Due in: Monday, **September 15th, before 13:30.**

Instructions:

1. Answer in English. Students can either type or write (except a screenshot of the search results can be an image). Include this cover sheet as the first page.
 2. Convert a file to PDF to save some space. Any unreadable parts will be considered wrong.
 3. Upload your answers as one PDF file in the LMS2.
 4. Late submissions will lose 5 marks. *Cheating will result in 0 marks for all those involved.*
-

Name-Surname: **Student ID:**

Question 1 (10 marks)

- Select any 5 different categories of ChatGPT prompt examples from <https://platform.openai.com/docs/examples>.
- Give a new innovative example for each category. Try to be different from your classmate. The mark will be allocated upon novelty, impact, and usefulness.
- Provide a screenshot of the search results (a total of 5 images or more).

Question 2 (10 marks)

- Give your 5 creative images generated from a text-to-image generative AI model. The 5 prompts (texts) must be different, new, and creative.
- Provide a screenshot of the prompt results (a total of 5 screenshots).
